**Roberto Ferroggiaro, Chief Financial Officer of Racing Force Group,** commented:

*"During the third quarter, the Group further consolidated its growth in motorsport, confirming its resilience in a context still characterized by geopolitical uncertainty and weak global demand, while awaiting to observe the impact of recent interest rate cuts by the ECB and FED on demand. Notably, the Americas reported a second consecutive quarter of growth in sales, with an 11% increase in Q3 2024. Caution is advised in evaluating the American market: it will be essential to monitor trends in the coming months and dealer stock orders to evaluate the year-end results and gain a more reliable outlook for 2025. Overall, expectations remain positive, supported by the observed growth signals and the progress in diversification projects, which are in line with the plan".*
