A New Competition to Welcome Driver's Eye

Yesterday, we mentioned Driver's Eye and the possibility of the technology entering new competitions. Indeed, Racing Force announced yesterday that it has signed an agreement with the Australian Repco Supercars championship, which will impact Driver's Eye starting next season.

After Formula E and Formula 1, the Repco Supercars Championship will be the third competition to feature the patented Driver's Eye technology and the first touring competition. This championship, where OMP and Bell products are already present (RFG has equipped the last 6 winners), brings together 25 drivers, 11 teams and 12 events over one season. The contract with the Repco Supercars Championship covers all the events and all the drivers from the 2023 season onwards, which will start on the weekend of 10-12 March 2023. Like Formula E, this new season will see the introduction of new regulations for the Repco Supercars Championship with the Gen3 Chevrolet Camaro and Ford Mustang.

Although no indication has been given as to the amount of the contract, it should logically be much lower than that with F1. With around 5.5m viewers at the biggest event of the year in Bathurst, mostly from Australia and New Zealand, the competition's popularity is still much more modest than that of F1, which averaged 70m viewers worldwide at each Grand Prix during the 2021 season.

Although the contract's signing has not led us to revise our estimates, it reinforces our vision of this technology, which could quickly become a catalyst for the group through the multiplication of this type of contract, whether in motor sport or in other industries as mentioned in yesterday's note. We are reiterating both our Buy rating and TP of €6.1.

DISCLAIMER

Analyst certifications

This research report (the “Report”) has been approved by Midcap, a business division of TP ICAP (Europe) SA (“Midcap”), an Investment Services Provider authorised and regulated by the Autorité de Contrôle Prudentiel et de Résolution (“ACPR”). By issuing this Report, each Midcap analyst and associate whose name appears within this Report hereby certifies that (i) the recommendations and opinions expressed in the Report accurately reflect the research analyst’s and associate’s personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst’s or associate’s compensation was, is or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst or associate in the Report.

Methodology

This Report may mention evaluation methods defined as follows:

1. DCF method: discounting of future cash flows generated by the company's operations. Cash flows are determined by the analyst's financial forecasts and models. The discount rate used corresponds to the weighted average cost of capital, which is defined as the weighted average cost of the company's debt and the theoretical cost of its equity as estimated by the analyst.
2. Comparable method: application of market valuation multiples or those observed in recent transactions. These multiples can be used as references and applied to the company's financial aggregates to deduce its valuation. The sample is selected by the analyst based on the characteristics of the company (size, growth, profitability, etc.). The analyst may also apply a premium/discount depending on his perception of the company's characteristics.
3. Assets and liabilities method: estimate of the value of equity capital based on revalued assets adjusted for the value of the debt.
4. Discounted dividend method: discounting of estimated future dividend flows. The discount rate used is generally the cost of capital.
5. Sum of the parts: this method consists of estimating the various activities of a company using the most appropriate valuation method for each of them, then realizing the sum of the parts.

Conflict of Interests

D. Midcap or any related legal entity is a market maker or liquidity provider with whom a liquidity agreement has been entered into in respect of the Issuer's financial instruments: Racing Force SpA

F. Midcap or any legal entity related to it is party to any other agreement with the Issuer relating to the provision of investment services in connection with the corporate activity: Racing Force SpA

G. Midcap and the Issuer have agreed to the provision by the former to the latter of a service for the production and distribution of the investment recommendation on the said Issuer: Racing Force SpA

History of investment rating and target price – Racing Force SpA

Distribution of Investment Ratings

Rating	Recommendation Universe*	Portion of these provided with investment banking services**
Buy	85%	65%
Hold	13%	39%
Sell	1%	0%
Under review	1%	100%

Midcap employs a rating system based on the following:

Buy: Expected to outperform the markets by 10% or more over a 6 to 12 months horizon.

Hold: expected performance between -10% and +10% compared to the market over a 6 to 12 months horizon.

Sell: Stock is expected underperform the markets by 10% or more over a 6 to 12 months horizon.
