

COMUNICATO STAMPA

Racing Force among the best strategies on the EGM market The Equita, Università Bocconi and Borsa Italiana award

The group from Genoa, which is listed on the Euronext Growth Milan segment, received the 'award for the best capital market utilisation strategy' for the fundraising category on the Euronext Growth Milan (EGM) stock market.

Ronco Scrivia (GE), 5 May 2022. Racing Force Group, a world leader in the design, manufacture and marketing of safety equipment for motor racing, has received the "Award for Best Capital Market Utilization Strategy" for the Fundraising category on the Euronext Growth Milan ("EGM") stock market.

The award, presented by Equita Group, an independent Italian investment bank, under the patronage of Università Bocconi and Borsa Italiana, is intended to highlight in particular the success of the Racing Force Group's listing on the Euronext Growth Milan market, organised and managed by Borsa Italiana. This award recognises "the originality and effectiveness of the operation carried out on the capital market as a lever for the relaunch and development of the company".

Out of a total of 57 transactions, the Ronco Scrivia Group's transaction was selected by a 15-member panel of judges, chaired and coordinated by Francesco Perilli, an executive director of Equita Group, and made up of authoritative and recognised professionals from the world of business, finance and institutions, who gave an independent and multidisciplinary assessment of the various profiles of the transactions examined.

*"We are really proud of this award because it underlines the validity of the growth project that we proposed to the market - commented the **CEO and Chairman of Racing Force Group, Paolo Delprato** - and that day after day we are turning into reality also thanks to the precious collaboration of Equita. The listing has allowed us to express all the technological know-how of OMP, Bell and Zeronoise, focusing on products like Driver's Eye, which is having a very important impact in the world of motorsport, and putting the US market back at the centre of our network of commercial agreements. We are continuing to work in this direction, finding significant growth opportunities outside of motorsport and we are constantly evaluating possible acquisitions of players that could increase the value of the Group".*
